

Dear Year 5,

It had been an unusual few weeks without seeing all of you great children in year five. I miss seeing all your smiley faces and seeing what great learners you all are!

It can imagine it being difficult having to be at home all the time although it must be nice to have a break from school. It must also be difficult not seeing your friends and family at this time but try to remember things will not be like this for ever and will go back to normal eventually. Just please stay safe at home until things get back to normal.

I have been writing lots of plans for the summer term for us to do. We will be reading the Hobbit in class (so no need to read this book at home) and we will also be learning about angles and algebra in Maths. There are so many fun things to learn next term: in R.E. we will be learning about how art, drama and song can be used to express meaning while in Computing we will use 3D graphic modelling software to create and explore objects. There will be lots of other fun Art and D&T work to do as well.

Mrs Dewart and Mrs Hart have been missing you all too and they have been busy sorting all our resources, getting them ready for when we continue our learning. They both look forward to seeing you all soon.

I am so proud of you all and how well your learning has been progressing this year. Remember to stay resilient and to help your parents and carers whenever you can. See this time as an opportunity to show how helpful and caring you can be at home as you always are at school.

Hope to see you all soon.

Mr Heskin
