ISSUE 3

22ND OCTOBER 2020

Message from Mrs McGuigan

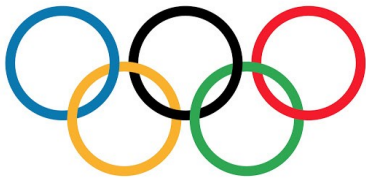

It is hard to believe that we have reached October half term already and that we have been back at school for seven weeks! We would like to take this opportunity to thank you for supporting us with ensuring that the whole school community remains as safe and COVID19 free as possible. We are very aware, and receive regular updates, regarding what is happening in schools locally and as up to date with changing guidelines as the weeks pass.

We would request that parents and carers continue to follow all of the Government guidelines over the half term break to give school the best chance to remain open for all children for the following half term. I will be monitoring the school emails over the half term holiday every day and I would like to encourage parents to keep us updated with information regarding children developing the COVID19 symptoms, tests being taken as well as obviously tests results during this time. The early receipt of information regarding a child testing positive could make a difference to the advice given by Public Health England.

The Government guidelines state that in order to lower the risk doors and windows should remain open wherever possible to allow a flow of air through the room. Now that the temperature has dropped, and will continue to do so, we have sort guidance on this. The recommendation was that any classroom should be a minimum of 16 degrees therefore heating should be on and if temperature rises considerably above this then windows can be open until the temperature drops again when they may need to be closed or at least some closed. As the winter weather arrives we would suggest that children are wearing layers of clothing!

As a school we will be keeping all other measures in place that we have been following this half term. We will be introducing an after school sports activity however children will continue to be kept in the class bubbles in order to do this. This continues to be above and beyond Government advice however this will limit the numbers of children being identified as needing to be sent home if a child is tested positive.

Final Date for Secondary Applications

Please note the closing date for Secondary School Applications is

31/10/20

Applications after this date may not be allocated their choice of
Secondary School

Olympics

Yesterday we took part in the Olympics.

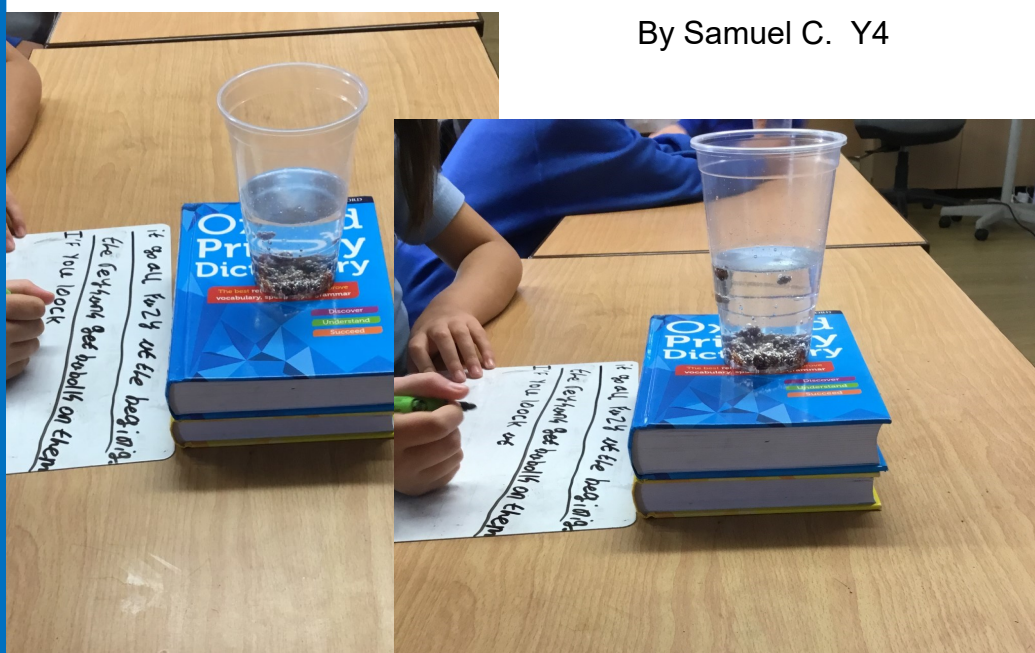

Every class had a country, we were Bulgaria. Miss Parker and the year six's lead us in running and bowling, football and throwing. Some children got medals and we all won points for our country. I had lots of fun doing all the activities.

Science in Year 4

The lemonade experiment was amazing, the raisins were bouncing all over and we called them dancing raisins. It was very fascinating, some sunk and some floated. The carbon dioxide bubbles stuck to the wrinkly parts. I loved the experiment, I would love to do it again someday.
